Blaney McMurtry, International Law Firms Launch New Global Insurance Network

Date: March 30, 2017

Blaney McMurtry is pleased to announce the launch of a new, multi-jurisdiction legal network providing global service to insurance clients from independent law firms across Europe and North America.

Insurance Law Global (ILG) is a network comprised of like-minded, independent insurance defence firms from the UK, Canada, Spain, and the USA, and is the result of over a year of preparation and organization. The firms will collaborate on a non-exclusive basis to help clients respond to the challenges presented by globalization and the increasingly dynamic political and environmental landscape. We have worked hard to ensure all member firms are culturally and organizationally compatible, and are committed to continuing this development - expanding the global reach of the network even further and offering our clients the best possible service.

In Canada, the network is represented by Blaney McMurtry, which will work alongside fellow founders Weightmans from the UK, Spanish firm LC Rodrigo Abogados, and the USA's Marshall Dennehey Warner Coleman & Goggin. Member firms have a strong commitment to the insurance industry and share a common philosophy; we are results-oriented and offer practical solutions of a high standard, with client care at the heart of our approach.

Insurance Law Global offers a cross-border, multi-jurisdictional service, currently covering 30 cities and six countries.
